

Dear Kurt and Joey:

Although I had seen the shower and steam unit finished up via photographs, today, April 20th was the very first time that I had a glimpse in person. First, your work is impeccable and second, you've transformed the lay out of this room into something I never had imagined that could look so nice and fit so perfectly within our concept. I wanted to thank you for the wonderful work you did and you can be assured that we will strongly recommend you on both, professional and personal level to anyone who will inquire

Once again, thank you very much for all your efforts and patience working with u

Have a wonderful day,

Marie-Christine F. Lesage
